Philosophy

To build software that empowers people through accessibility, sensitivity and careful, professional development practices.

Experience

Australian Council for Educational Research ★ May 2016 – Jul. 2016

Senior Software Developer (Contract)

Implemented the front-end and contributed to the design of the back-end of a Rails and jQuery-based online learning application with an interactive SVG component.

Alliance Software ★ Mar. 2016 – Apr. 2016

Senior Developer (Contract)

Contributed to the implementation of both the front-end and back-end of a React and Django-based responsive web application. Participated in peer code review, and assisted in refining UI and functional requirements.

Macropod ★ Oct. 2014 – Feb. 2016

Developer

As part of a team, built and maintained multiple web apps using modern web technologies. Maintained several supporting React modules, PostCSS plugins and dev tools. Helped to standardise and formalise internal code structure. Consulted with designers to ensure Macropod could execute on designs and to provide high quality products.

Movideo ★ 2013 – 2014 (Front-End Developer)

George Patterson Y&R ★ 2012 – 2014 (Digital Developer)

Devhouse Studios ★ 2010 – 2011 (Developer & Project Manager)

Simplest Business Solutions ★ 2010 (Junior Developer)

Technologies
