Employment History

Movideo
Front-End Developer
May 2013 – October 2014

Role:
Maintained a **JavaScript library** requiring support for many and varied browsers, screens and devices. Implementing both new features and **bug fixes**.

Major contributor to a **refactor** which removed the JavaScript library's dependency on jQuery, in favour of **native browser and DOM methods** (with shims for older browsers).

Lead front-end developer and **designer of responsive behaviour** for adultswim.com.au.

Contributed feedback for the design and outsourced development of native mobile apps.

Primary contributor to development of a complex, **AngularJS**-based web application.

Technologies Used:
- HTML 5 & HTML 5 Video
- CSS 3
- Responsive Layouts
- Flexbox
- JavaScript
- SASS & LESS
- SVG
    - Fonts & Icons
    - Logos
- Lo-Dash
- jQuery
- AngularJS
- Grunt
- Play Framework 2
- Java & Scala
- Jenkins Continuous Integration
- git

Example Sites:
- [adult swim] Australia
  adultswim.com.au
- RazorTV razor.tv

George Patterson Y&R

Digital Developer
April 2012 – May 2013

Role:
Involved in development of existing **web** applications, including new features, **content maintenance, testing** and **bug fixes**.

Responsible for the **initial development** of web applications, including planning **database structures**, scope gathering and **documentation**.

Technologies Used:
- HTML 4 & 5
- CSS
- LESS & SASS
- JavaScript
- jQuery
- Require.js
- Facebook APIs
- PHP
- ASP .NET
- C# .NET
